

Brief

Hunter Corral Associates Receives 2006 Impact on Learning Award

The Council of Educational Facility Planners International & School Planning and Management magazine has recently announced the winners of the “Impact on Learning” design program. This awards program recognizes innovative educational facility designs that impact learning.

There were entries from across the country. **Hunter Corral Associates** was selected as an award winner for innovative school design and developing an empirical method of measuring impact of facilities on learning.

The projects included were Blackshear, Milam and Reagan Elementaries in Odessa. Order of level of impact on learning (highest impact listed first) was Milam, Blackshear and Reagan.

Key HCA Staff:	Principal in charge of project Project Architect Environmental Specialist	Monte Hunter Mark Glasscock Ines Corral
Key District Staff:	Director of Facilities Blackshear Principal Milam Principal Reagan Principal	David Finley Sally Navarro Staci Ashley Anita Absher

Impact on Learning Awards Info

- Entries were from firms from across the USA and Canada.
- 8 firms received the award. Other award winning projects were in California, Connecticut, Indiana, Michigan, Minnesota, and Texas.
- Unlike other design competitions that are based largely on aesthetics, the Impact on Learning Awards focuses on how a school facility design impacts learning.
- The winners were published in School Planning & Management magazine and recognized at the 2006 Council of Educational Facility Planners International’s 83rd Annual Conference in Phoenix.
